

COMPANY OVERVIEW AND CORPORATE HISTORY

Aerial Surveys International, LLC (ASI) was formed in 1998 by Ron Macke and Mark Schubert. Our firm specializes in the acquisition of precision aerial Imagery. Our primary objective is to provide our clients the highest quality photography and LIDAR data in a timely manner. Our firm uses state of the art aerial cameras, twin engine aircraft with GPS navigation, and the Track Air flight management systems. Our staff and crews have nearly 125 combined years of aerial surveying experience. We specialize in emergency response projects, large State imagery projects, pipeline and transmission projects, as well as providing imagery for numerous mapping Companies.
