

**RÈSUMÈ OF**

**MARK A. KNIGHT**

**Woodland Park •CO**

---

**Professional Experience**

Extensive knowledge of the Aero Triangulation process. A.T. flight and control layout, prepping, pugging, observing with AP32 software. Adjustments made with Pat-B GPS and Kenific software. A.T. final reports. Working 6yrs on U.S.G.S. A.T. contracts for Orthophoto updates of the United States.

Compilation and manual contouring of small and large scale mapping projects. Corridor mapping, Cross Section and Profiling, Volumetric computationS for mining projects, and DTM for contour generation.

Supervising personnel, coordinating work flow through Surveying, Flying Vendor, Photo Lab, A.T., Compilation, Scribing, and delivering final products. Project management and client contacts were many of my responsibilities.

I have a working knowledge of Orthophoto rectification, Match A.T., and Intergraph Softcopy workstations.
